

## Japanese Earthquake Appeal

On Friday 11th March Japan was struck by a major earthquake, followed by a tsunami. Japan is still counting the damage as they search for survivors and deal with the ongoing aftershocks. This disaster directly affects many friends who have trained with us in Dublin Kendo Kobukai over the years, and the club wants to extend its sincere sympathy and support to all affected.

On Sunday 20th March, 2011 members of the Dublin Kendo Club will attempt to complete 5000 suburi cuts to raise funds for the relief-effort in Japan. These are usually part of the general training programme but not in such numbers with perhaps 200 being normal in a single training session.
